

SKILLMARKET™

As an industry leader in electronic health record (EHR) go-live support, Optimum Healthcare IT has created SkillMarket™, a software platform designed to automate multiple processes that are critical to a successful go-live. Gone are the days of managing complex and dynamic go-live environments with spreadsheets and out-of-date technologies. SkillMarket addresses and eliminates many of the common issues that lead to double- or triple-booked resources, missed departments, last minute scheduling and under-supported staff.

Previously known as golivesupport.com, SkillMarket is loaded with new features and tools to support go-lives from start to finish. With a pool of nearly 7,000 highly skilled consultants, each carefully vetted and approved, clients have access to the industry's best at-the-elbow support. For any go-live engagement, SkillMarket makes consultant recruiting, onboarding, and scheduling seamless. Utilizing geolocation data, profile skill ratings, and additional metrics to minimize travel time, Optimum can reduce expenses, and improve both client and consultant satisfaction for any project, large or small.

Industry-leading tools that streamline your organization's go-live.

After assigning the best resources, Skill Market optimizes shift scheduling, hotel assignments, and carpool groupings, minimizing travel time and expense. The SkillMarket scheduling system is an industry first, providing our clients with an on-line system that has been custom designed for the needs of an EHR go-live. Our scheduling engine provides clients, project managers, consultants and client personnel with unprecedented visibility and management capabilities bringing a system and process to a go-live that is unparalleled in the industry.

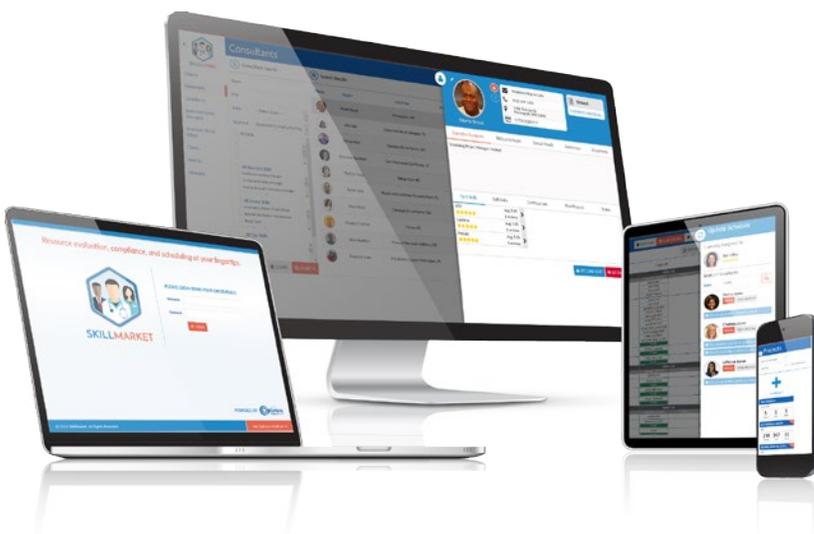

It is our mission to deliver best practices and leading IT solutions for a stronger healthcare community.

Skillmarket offers proprietary solutions that provide:

During a go-live engagement, Optimum tracks and communicates with our consultants using a mobile application, providing immediate updates and notes as necessary. With the robust reporting infrastructure built into SkillMarket, go-live support decisions won't be made blindly. SkillMarket provides real-time, up-to-date burn rate reports and a variety of visualized taper options to allow you to stay current on expenditures and to minimize total project costs. With so much information at your fingertips, you have the knowledge to make the right decisions at the right time. After successful completion of the project, we provide feedback surveys to key client personnel to tailor and improve our offerings for future projects.

Do you have an upcoming go-live project? Take some time and view our consultant's profiles. You'll find more than just resume rehashes. Each of our consultants is graded on several criteria including experience, certifications, attitude, and client feedback. Included in the profiles, you will find, complete interview notes, skill rankings, clinical certifications, and reviews from previous placements.

With SkillMarket, you will have the confidence that when you partner with Optimum, every team member is a fully-trained, experienced professional who will work with you to understand the uniqueness of your organization and work with you to ensure success.

Better Solutions. Better Patient Care.
