

Better Solutions. Better Patient Care.

1.904.373.0831 / WWW.OPTIMUMHIT.COM

Enterprise Resource Planning

In today's healthcare environment, controlling cost is an essential component of the business – but costs can't be controlled unless they are properly measured and made visible to decisions makers throughout the organization. With timely and accurate information, healthcare organizations can stay focused on improving the quality of care while making better decisions and lowering the costs of care to patients. Doing so requires a modern and well-deployed Enterprise Resource Planning (ERP) solution.

Optimum Healthcare IT has a dedicated practice focused on assisting healthcare organizations with implementing and optimizing ERP solutions. Our experience includes working with the industry's leading ERP packages such as Oracle, SAP, Lawson, Peoplesoft, and Pathways. The team at Optimum has extensive experience in financial management, inventory and supply chain management, human resources, back-office shared service and business process optimization.

Optimum Healthcare IT brings expertise to hospitals at every stage of the ERP project, including selecting the right solution, developing an implementation strategy, hands-on assistance during the project, and optimizing the use of the application after go-live.

The implementation of an ERP system should strengthen the three pillars of a healthcare organization; Finance, Human Resources, and Supply Chain. A modern, well-designed ERP system includes advanced capabilities in these areas, and Optimum can provide expertise both inside and outside the ERP to optimize the development of goal-driven metrics to improve reporting.

Advanced capabilities such as budgeting, dashboards, and asset tracking are essential to the financial performance of the organization. Through successful supply chain implementations of purchasing, inventory, EDI, sourcing, and payment components of ERP solutions, healthcare organizations can ensure that the right product is in the right place at the right time – and at the right cost, creating the optimal patient experience. Nursing shortages and other issues with finding and keeping qualified staff is a challenge across the industry. Human resource solutions are no longer just about payroll and employee file maintenance – now talent management is the key to employee retention, and integrated applicant systems are necessary to find and engage potential candidates.

*It is our mission to deliver best practices and leading IT solutions for a **stronger healthcare community.***

Optimum's consultants have many years of experience providing services in ERP services that encompass:

A person is shown working on a laptop in a professional setting, with a pair of glasses resting on the desk.

Software
Selection

A person is standing at a service counter in a hospital or office hallway, interacting with staff.

Implementation
Strategy

A group of healthcare professionals, including doctors and nurses, are gathered around a table, reviewing documents.

Staff
Augmentation

A person is standing at the front of a meeting room, presenting to a group of people seated at tables.

Project
Initiation

A person is using a pen to sign a document on a desk, with other papers and a calculator nearby.

Change
Management

A group of people are looking at a computer screen in a meeting room, with a DNA double helix graphic overlaid on the image.

Master Data
File Build

A group of people are gathered around a table, looking at a laptop screen and discussing a project.

Workflow Assessment
& Project Improvement

A person is typing on a keyboard in a computer lab or office, with a large circular graphic overlaid on the image.

Training and
Go-Live Support

A person is working at a computer workstation in a large office or data center environment.

Implementation Audit
& Quality Assurance

At Optimum Healthcare IT, we bring experienced consultants with software expertise, but also best practices that hospitals may deploy during or after an ERP implementation. Our portfolio of services is designed to provide additional guidance and support as your organization goes through this critical transformation.

OUR PHILOSOPHY

At Optimum Healthcare IT, we are committed to helping our clients improve healthcare delivery by providing world-class consulting services. We bring the most proficient business and clinical consultants in the industry to identify our client's issues and explore the right solutions to fit their organization's goals. **Together, we identify and implement the best people, processes, and technology to ensure our client's success.**

Optimum Healthcare IT provides small-business flexibility with large-business stability, without the extraordinary costs.

We are responsive, flexible, and most of all, accountable.

CORE VALUES

Our core values are simple – we start by listening and focus on three key areas:

Providing excellent service

Showing passion for our work

Making patient safety our top priority

By listening, we understand our client's unique needs and select only the most qualified candidates for your organization – and then we continually follow-up to make sure the consultants remain a perfect fit. Our team brings years of healthcare clinical, operational, and IT knowledge, and takes the time to understand your organization, working collaboratively with your staff to customize solutions that are specific and targeted to your needs.

Without sacrificing quality, we are committed to providing world-class consulting services, at a reasonable cost. Our role is to act as trusted advisors to our clients – **your success is our success.**

WHY CHOOSE OPTIMUM?

Optimum Healthcare IT is a full-service, Best in KLAS organization that offers a wide range of services which allows us to assist our clients every step of the way. When our clients have a need, we can fulfill it. With a business built on experience in the healthcare industry, we understand what is most important to our clients and consultants. We only recruit the best – combining our experience and capabilities with the best the industry has to offer, we provide superior service to our clients.

Our approach is comprehensive; our experience is vast. We listen; we learn. Your success is our success.
