

BETTER SOLUTIONS. BETTER PATIENT CARE.

OPTIMUM HEALTHCARE IT
**ENTERPRISE RESOURCE
PLANNING**

1.904.373.0831 | WWW.OPTIMUMHIT.COM

In today's healthcare environment, controlling cost is an essential component of the business – but costs can't be controlled unless they are properly measured and made visible to decisions makers throughout the organization. With timely and accurate information, healthcare organizations can stay focused on improving the quality of care while making better decisions and lowering the costs of care to patients. Doing so requires a modern and well-deployed Enterprise Resource Planning (ERP) solution.

Optimum Healthcare IT brings expertise to hospitals at every stage of the ERP project, including selecting the right solution, developing an implementation strategy, hands-on assistance during the project, and optimizing the use of the application after go-live.

Optimum Healthcare IT has a dedicated practice focused on assisting healthcare organizations with implementing and optimizing ERP solutions. Our experience includes working with the industry's leading ERP packages such as Oracle, SAP, Lawson, Peoplesoft, and Pathways. The team at Optimum has extensive experience in financial management, inventory and supply chain management, human resources, back-office shared service and business process optimization.

The implementation of an ERP system should strengthen the three pillars of a healthcare organization; Finance, Human Resources, and Supply Chain. A modern, well-designed ERP system includes advanced capabilities in these areas, and Optimum can provide expertise both inside and outside the ERP to optimize the development of goal-driven metrics to improve reporting.

Advanced capabilities such as budgeting, dashboards, and asset tracking are essential to the financial performance of the organization. Through successful supply chain implementations of purchasing, inventory, EDI, sourcing, and payment components of ERP solutions, healthcare organizations can ensure that the right product is in the right place at the right time – and at the right cost, creating the optimal patient experience. Nursing shortages and other issues with finding and keeping qualified staff is a challenge across the industry. Human resource solutions are no longer just about payroll and employee file maintenance – now talent management is the key to employee retention, and integrated applicant systems are necessary to find and engage potential candidates.

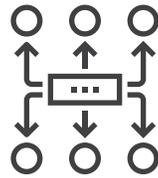

It is our mission to deliver best practices and leading IT solutions for a **stronger healthcare community**.

At Optimum Healthcare IT, we bring experienced consultants with software expertise, but also best practices that hospitals may deploy during or after an ERP implementation. Our portfolio of services is designed to provide additional guidance and support as your organization goes through this critical transformation.

/// WHAT GIVES US THE EDGE?

LEADERSHIP

Former clinical and operational leaders from provider organizations who have been in your shoes and understand the complexities of EHR delivery

PERSONNEL

One of the nation's largest consulting teams of approximately 300 MDs, RNs, RPHs, and informaticists with the ability to leverage thousands of resources.

FOCUS

Dedicated healthcare practice focused on the continuum of care via clinical and business processes, delivered via IT strategy and advisory services.

EXPERTISE

Extensive industry and vendor knowledge with large-scale, multi-entity EHR experience.

HISTORY

Extensive client reference-ability and a long track record of successful engagements completed on-time and under budget.

VERSATILITY

Ability to deliver a wide array of quality services and consultants across the full spectrum of provider systems, while quickly pivoting to address your unforeseen needs.

TOOLS

SkillMarket, our proprietary software platform designed to automate complex tasks such as resource selection, scheduling, detailed reporting, compliance, and more.
